CO-OP ORDER

Co-op orders are an opportunity for a client to send invoices to national brands in order to have \$ returned to them for advertising. A co-op invoice sent to the client will detail the days/times/commercial # of all ads run during that invoicing month. It will also include a script affidavit which provides the wording/script, the \$ value and the number of times a commercial played.

With all co-op orders, please ensure the following is indicated:

- The first thing is to ensure you check off YES in the Co-Op box on the BO;
- The formula for Co-op ----Billing Month=Scheduled Spots Run Dates;
- Script is sent either by adding to Script Box on broadcast order or adding to Influence when processing.
